e-Zone's Proposal for NRN Investment

Vision

In the present competitive world, people of underdeveloped country like Nepal can win using their skills in technology and management. Management team with technical knowledge, specific vision, rich in information and based in third world (underdeveloped) countries will be the leader of future world. 21st century belongs only to the third countries' young people because they are awake now with passion and their presence is all over the world. Now, we sell our skill to the developed countries not labor.

Objective

We aim to enter the international market in the field of information technology services. Our goal is to bring software development, web development, online support system, Business Process Outsourcing (BPO) work and business consultancy of America, Europe and other developed countries of the world into Nepal. Now, we have good backup of IT Nepalese IT graduates, IT professionals, and managers who will be the solution creator

Mission

We generate technically confident and professionally motivated team to deliver tasks in time. We simplify, standardize and automate the organizations technically. Analyze, plan, develop, deploy & maintain are the major steps for any new product or service we create. Our main strategy is to combine best people & best equipment, to create the best product. Everything we do reflects this mission and the values that make it possible.

Why NRN as an investor?

NRN are spread in USA, Europe, and all over the world, with their great mind and passion, seeking the opportunities. e-Zone aims to globalize Nepalese IT market. If e-Zone gets NRN as an investor, it will be great opportunity because its directors (BOD members) play major role to entry the global market staying different countries. Staff and technical team works here to make software and IT enabled services investor works to find the market globally.

Investment Planning

Total Investment	NRS. 10,000,000.00 (Ten Million)
Starting Investment	NRS. 5,000,000.00 (Five Million)
Next Investment (After one year)	NRS. 5,000,000.00 (Five Million)
e-Zone (25% of total investment)	NRS. 2,500,000.00 (2.5 Million)
NRN (60% for 3 or above investor)	NRS. 6,000,000.00 (Six Million)
Internal Staff (15% of total investment)	NRS. 1,500,000.00 (1.5 Million)

Board of Directors (BOD) Composition

Founder of e-Zone	1	Member
NRN	4	Members
Internal staff	2	Members
Total	7	Members

Chairman

Chairman will be selected in each two years from these board members. He/She represents the member of BOD and plays vital role for policy making. He gets the authorities of BOD to implement decisions and monitor corporate policies implementation.

Chief Executive Officer (CEO)

Chief Executive Officer (CEO) will be selected from open market as an employee with best facilities in industry. He/She must have very strong professional background. He will be responsible for policies implementation to achieve the organizational goals and objectives. He is responsible to implement the BOD and Chairman decisions.

Conceptual background step by step

1. Normal Website development of local companies.
2. Advanced Website development of local companies.
3. ISO 9001-2000 Certificate receiving (It is under process).
4. Advanced Web Programming for local companies.
5. Searching Website design work from the link of NRN, friends, internet search (showing portfolio of work, company profile and sample templates)
